ASSESSMENT OF INFECTION PREVENTION AND CONTROL PRACTICES AMONG NURSES

Hospital: _____ **Department:** _____ **Date:** ___/___/2026

CONSENT FORM

☐ I voluntarily agree to participate in this study.

☐ I understand that my responses will be kept confidential.

Participant No: _____ **Signature (optional):** _____

SECTION A: SOCIO-DEMOGRAPHIC INFORMATION

1. Gender

○ Male ○ Female

2. Age (Years)

○ ≤25 ○ 26–30 ○ 31–40 ○ Above 40

3. Marital Status

○ Single ○ Married ○ Widowed

4. Professional Qualification

○ Medicine ○ Diploma ○ BSN ○ MSN ○ Other: ____

5. Department

○ Emergency ○ HDU ○ Medicine

○ Labor Room ○ Surgery/OR ○ ICU

○ Other: ____

SECTION B: KNOWLEDGE ABOUT INFECTION CONTROL

6. Nosocomial infection refers to an infection acquired during hospital stay rather than from home.

○ True ○ False ○ Don't Know

7. I am aware of the WHO Five Moments of Hand Hygiene.

○ Yes ○ No ○ Partially

8. All healthcare workers and patients should be considered potentially infectious (Standard Precautions).

○ True ○ False ○ Don't Know

9. Body fluids should never be handled with bare hands, even if gloves are unavailable.

○ True ○ False ○ Don't Know

10. How would you rate your overall knowledge regarding prevention and control of hospital-acquired infections?

○ Excellent ○ Good ○ Fair ○ Poor ○ Very Poor

SECTION C: INFECTION CONTROL PRACTICES

11. How often do you perform hand hygiene BEFORE direct patient contact?

○ Always (100%) ○ Very Often (75-99%) ○ Often (50-74%) ○ Sometimes (25-49%) ○ Rarely/Never (<25%)

12. How often do you perform hand hygiene AFTER direct patient contact?

○ Always (100%) ○ Very Often (75-99%) ○ Often (50-74%) ○ Sometimes (25-49%) ○ Rarely/Never (<25%)

13. How often do you wear appropriate PPE (gloves, masks, gowns) when handling body fluids?

○ Always (100%) ○ Very Often (75-99%) ○ Often (50-74%) ○ Sometimes (25-49%) ○ Rarely/Never (<25%)

14. How often do you wear masks and eye protection during invasive or high-risk procedures?

○ Always (100%) ○ Very Often (75-99%) ○ Often (50-74%) ○ Sometimes (25-49%) ○ Rarely/Never (<25%)

15. How often do you follow proper sharps disposal procedures immediately after use?

○ Always (100%) ○ Very Often (75-99%) ○ Often (50-74%) ○ Sometimes (25-49%) ○ Rarely/Never (<25%)

SECTION D: CHALLENGES & BARRIERS

16. Personal protective equipment (PPE) is consistently available when I need it in my department.

○ Strongly Agree ○ Agree ○ Neutral ○ Disagree ○ Strongly Disagree

17. Heavy workload makes it difficult for me to follow all infection control protocols.

○ Strongly Agree ○ Agree ○ Neutral ○ Disagree ○ Strongly Disagree

18. I have adequate time during my shift to properly follow all infection control procedures.

○ Strongly Agree ○ Agree ○ Neutral ○ Disagree ○ Strongly Disagree

19. I receive sufficient training and regular updates on infection prevention and control practices.

○ Strongly Agree ○ Agree ○ Neutral ○ Disagree ○ Strongly Disagree

20. My department has strong management support for infection control compliance.

○ Strongly Agree ○ Agree ○ Neutral ○ Disagree ○ Strongly Disagree

THANK YOU!

Thank you for your time and cooperation. Your responses are valuable and will help improve infection prevention practices and patient safety.
